DETAILED ACTION

The following is in response to the amendment filed May 18, 2006.

Allowable Subject Matter

Claims 13-16 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or suggest a method of making a coated paper having a coating on at least one side of a paper substrate at coat weight of 2-8 lbs/3300 ft², wherein the method includes preparing a coating formulation having a cationic slurry comprising from about 42-72% total solids by weight, including about 35-45% by weight alumina pigment, about 0.5-5% by weight wetting agent, and about 2-15% by weight cationic interfacial modifier.

Reference is made to parent application 09/711,387.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments filed May 18, 2006 have been considered.

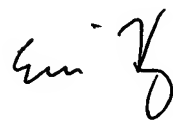

The amendment to the claims has overcome the rejection under 35 U.S.C. 112, first paragraph, set forth previously. The rejections under 35 U.S.C. 103(a) over Imabeppu et al (US 5,741,584) and over Kaliski et al (US 3,804,656) set forth previously have been rendered moot by cancellation of corresponding claims.
